PROFESSIONAL SUMMARY

Motivated BS Information Technology student and creative Graphics Designer with hands-on experience designing high-impact social media posts and promotional assets for university departments. Proven track record of combining sharp visual design, modern typography, and structured layouts with practical programming skills to build professional digital solutions and AI-driven web applications.

PROFESSIONAL EXPERIENCE

- Graphics Designer** *Current*
University of Education Lahore, Multan Campus
 - Design professional social media graphics, flyers, and digital creatives for university announcements, admissions, and campus events.
 - Apply advanced principles of typography, color theory, visual hierarchy, and negative space to ensure exceptional readability across online platforms.
 - Collaborate with campus management to deliver clean, branded promotional materials under tight deadlines.

FEATURED PROJECTS

- AI Research Paper Summarizer** *React, Python, FastAPI, AI API*
Developed an AI-based web application designed to automatically summarize complex research papers, helping users digest academic literature efficiently.
- AI Fake News Detector** *React, Python, Gemini API*
Built a digital content verification system that leverages AI to evaluate the authenticity of news headlines and social media claims.
- Lost and Found Management System** *Flask, MySQL, HTML, CSS*
Designed and implemented a relational database web portal streamlining the reporting, tracking, and management of lost campus property.
- Puzzle Brain Game** *JavaScript, HTML, CSS*
Created an interactive, browser-based logic puzzle game featuring multi-level progression and dynamic state management.

EDUCATION

- BS Information Technology** *Current*
University of Education Lahore, Multan Campus
- ICS (Intermediate in Computer Science)** *2024*
City College of Sciences and Commerce
Score: 821 Marks
- Matriculation (Science)** *2022*
Arfaa Science Secondary School
Score: 765 Marks

PROFESSIONAL STRENGTHS

Dual-Discipline Adaptability
Seamlessly bridges the gap between creative visual layouts and technical backend/frontend programming.

Fast Learner
Enthusiastic about mastering emerging AI technologies, modern web frameworks, and professional branding.

Availability
Open to freelance contracts, industry internships, and creative tech collaborations.
